Job Title: Senior / Principal Arboricultural Consultant
Location: Newmarket, Suffolk
Salary: In the region of £35k, depending on experience

agb Environmental Ltd is fast growth environmental and engineering consultancy. We have grown significantly and consistently over the past three years, and are looking to exploit our industry knowledge and experience to continue along a strong growth trajectory.

We offer a wide range of environmental and engineering services including geo-environmental, geotechnical, ecology, arboriculture, forestry, waste and flood risk.

Based from our offices in Newmarket, Suffolk we serve the East and Southeast of England, the East Midlands and London. We have a wide range of clients, from private developers, large organisations, local government and the Civil Service.

Due to an expanded offering of arboricultural works, and following our continued strong growth, we have an immediate opening for a Senior to Principal level Arboricultural Consultant to work alongside our existing team. The start date for this role is as soon as possible.

**The Role of Arboricultural Consultant:**

agb Environmental Ltd is seeking an Arboricultural Consultant to deliver on all tree and arboricultural services on behalf of agb Environmental. The aim is to maintain the very high level of service offered whilst building a team of consultants to support the wider company strategy.

You will be delivering services mainly focused on BS5837 for development schemes. However, your knowledge may be utilised in wider tree and woodland management settings where appropriate.

This role represents an opportunity for a focused consultant to drive forward their career in a rapidly growing organisation by leading the arboricultural section. Progression is limited only by your capabilities, and you will be actively encouraged to seek career development opportunities.

**To be considered for the role of Geo-environmental / Geotechnical Engineer you must possess the following:**

- A BSc preferably in a related discipline.
- Experience of leading on and delivering BS5837 schemes for developments ranging from small housing through to large industrial and educational schemes.
- Solid tree identification skills, risk / hazard assessment and knowledge of arboricultural operational works.
- Experience of working with development project teams and regulators.
- Highly IT literate, particularly with MS Office packages.
- Full UK driving licence.

However, our overall expectation can be flexible for a candidate with exceptional potential.
In addition, you would *ideally* possess:

- Active and up to date CPD record.
- An MSc, ideally in a subject related to arboriculture.
- Comprehensive industry training.

The key attributes of the successful applicant will be:

- A self-starter who is confident and professional.
- Has a clear plan for the progression of their career.
- Understands the need for, and is able to work flexibly.
- Articulate and with a fastidious attention to detail.
- Is able to attend our office in Newmarket.
- Is willing to travel to meet the business need (most jobs are anticipated within the East, South East and London).
- Ideally have your own reliable vehicle that can be used for travel, though a van may be provided.

**The package for the role of Arboricultural Consultant:**

The salary for the position is negotiable based on your experience, knowledge and potential. High achieving performance of the successful candidate will be well rewarded.

We will work with you to help you develop your professionalism through continued professional development based around your development plans and our business need.

**To apply for the role of Arboricultural Consultant:**

If you are interested in the role of Geo-environmental / Geotechnical Engineer, please email careers@agbenvironmental.co.uk including “Arboricultural Consultant” in the subject line. We would like you to demonstrate how you fit the role, so please send whatever information you feel is pertinent. We thank all applicants for their submission; however, only those candidates who we wish to interview will be contacted. We will keep your application confidential, and will only contact references with your express permission.

If you would like an informal discussion about the role, and the great potential at agb Environmental, please contact Alex Brearley (Managing Director) at alex@agbenvironmental.co.uk.

It is likely that once this position is filled, we will continue to have a requirement for further and similar skills. We also anticipate the arboricultural team growing quickly, and so would welcome CVs from more junior arboricultural applicants. You are encouraged to send your CV at any time.

We are not considering applications through agencies for this role at this time.
